

## Centre of Excellence - EARTH SYSTEMS AND GEOSPATIAL SCIENCE & TECHNOLOGY (ESGST)

### DEPARTMENT OF CIVIL ENGINEERING **MAHARAJA INSTITUTE OF TECHNOLOGY MYSORE**

#### 3-Day Internship Training Schedule on Digital Elevation Model (DEM) Processing and Terrain Analysis Using QGIS

| Date       | Batch No. | Time        | Training Details                                    | Faculty Handling              |
|------------|-----------|-------------|-----------------------------------------------------|-------------------------------|
| 10/08/2026 |           | 09:00–11:15 | Introduction to DEM and Terrain Data                | Prof,MBR/Prof.MRN/Prof.RKL    |
|            |           | 11:30–01:15 | Downloading DEM and Administrative Boundary Data    | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           | 02:00–04:00 | Data Organization and Visualization                 | Prof. MBR/Prof. MRN/Prof. DA  |
| 11/08/2026 |           | 09:00–11:15 | Coordinate Reference Systems (CRS) and Reprojection | Prof. MRN/Prof. RKL/Prof. MBR |
|            |           | 11:30–01:15 | DEM Mosaicking                                      | Prof. MRN/Dr. SPM/Prof. MBR   |
|            |           | 02:00–04:00 | Clipping DEM to Study Area                          | Prof. MRN/Prof. DA/Prof. MBR  |
| 12/08/2026 |           | 09:00–11:15 | Slope and Aspect Analysis                           | Prof. RKL/Prof. MBR/Prof. MRN |
|            |           | 11:30–01:15 | Hillshade and Terrain Visualization                 | Dr. SPM/Prof. MBR/Prof. MRN   |
|            |           | 02:00–04:00 | DEM-Based Terrain Products and Map Layout           | Prof. DA/Prof. MBR/Prof. MRN  |

| Date       | Batch No. | Time        | Training Details                                    | Faculty Handling              |
|------------|-----------|-------------|-----------------------------------------------------|-------------------------------|
|            |           |             |                                                     |                               |
| 13/08/2026 |           | 09:00–11:15 | Introduction to DEM and Terrain Data                | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           | 11:30–01:15 | Downloading DEM and Administrative Boundary Data    | Prof. MBR/Prof. MRN/Prof. DA  |
|            |           | 02:00–04:00 | Data Organization and Visualization                 | Prof. MRN/Prof. RKL/Prof. MBR |
| 14/08/2026 |           | 09:00–11:15 | Coordinate Reference Systems (CRS) and Reprojection | Prof. MRN/Dr. SPM/Prof. MBR   |
|            |           | 11:30–01:15 | DEM Mosaicking                                      | Prof. MRN/Prof. DA/Prof. MBR  |
|            |           | 02:00–04:00 | Clipping DEM to Study Area                          | Prof. RKL/Prof. MBR/Prof. MRN |
| 17/08/2026 |           | 09:00–11:15 | Slope and Aspect Analysis                           | Dr. SPM/Prof. MBR/Prof. MRN   |
|            |           | 11:30–01:15 | Hillshade and Terrain Visualization                 | Prof. DA/Prof. MBR/Prof. MRN  |
|            |           | 02:00–04:00 | DEM-Based Terrain Products and Map Layout           | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           |             |                                                     |                               |
| 18/08/2026 |           | 09:00–11:15 | Introduction to DEM and Terrain Data                | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           | 11:30–01:15 | Downloading DEM and Administrative Boundary Data    | Prof. MBR/Prof. MRN/Prof. DA  |
|            |           | 02:00–04:00 | Data Organization and Visualization                 | Prof. MRN/Prof. RKL/Prof. MBR |
| 19/08/2026 |           | 09:00–11:15 | Coordinate Reference Systems (CRS) and Reprojection | Prof. MRN/Dr. SPM/Prof. MBR   |
|            |           | 11:30–01:15 | DEM Mosaicking                                      | Prof. MRN/Prof. DA/Prof. MBR  |
|            |           | 02:00–04:00 | Clipping DEM to Study Area                          | Prof. RKL/Prof. MBR/Prof. MRN |
| 20/08/2026 |           | 09:00–11:15 | Slope and Aspect Analysis                           | Dr. SPM/Prof. MBR/Prof. MRN   |
|            |           | 11:30–01:15 | Hillshade and Terrain Visualization                 | Prof. DA/Prof. MBR/Prof. MRN  |
|            |           | 02:00–04:00 | DEM-Based Terrain Products and Map Layout           | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           |             |                                                     |                               |
| 24/08/2026 |           | 09:00–11:15 | Introduction to DEM and Terrain Data                | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           | 11:30–01:15 | Downloading DEM and Administrative Boundary Data    | Prof. MBR/Prof. MRN/Prof. DA  |

| Date       | Batch No. | Time        | Training Details                                    | Faculty Handling              |
|------------|-----------|-------------|-----------------------------------------------------|-------------------------------|
|            |           | 02:00–04:00 | Data Organization and Visualization                 | Prof. MRN/Prof. RKL/Prof. MBR |
| 25/08/2026 |           | 09:00–11:15 | Coordinate Reference Systems (CRS) and Reprojection | Prof. MRN/Dr. SPM/Prof. MBR   |
|            |           | 11:30–01:15 | DEM Mosaicking                                      | Prof. MRN/Prof. DA/Prof. MBR  |
|            |           | 02:00–04:00 | Clipping DEM to Study Area                          | Prof. RKL/Prof. MBR/Prof. MRN |
| 26/08/2026 |           | 09:00–11:15 | Slope and Aspect Analysis                           | Dr. SPM/Prof. MBR/Prof. MRN   |
|            |           | 11:30–01:15 | Hillshade and Terrain Visualization                 | Prof. DA/Prof. MBR/Prof. MRN  |
|            |           | 02:00–04:00 | DEM-Based Terrain Products and Map Layout           | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           |             |                                                     |                               |
| 27/08/2026 |           | 09:00–11:15 | Introduction to DEM and Terrain Data                | Prof. MBR/Prof. MRN/Dr. SPM   |
|            |           | 11:30–01:15 | Downloading DEM and Administrative Boundary Data    | Prof. MBR/Prof. MRN/Prof. DA  |
|            |           | 02:00–04:00 | Data Organization and Visualization                 | Prof. MRN/Prof. RKL/Prof. MBR |
| 28/08/2026 |           | 09:00–11:15 | Coordinate Reference Systems (CRS) and Reprojection | Prof. MRN/Dr. SPM/Prof. MBR   |
|            |           | 11:30–01:15 | DEM Mosaicking                                      | Prof. MRN/Prof. DA/Prof. MBR  |
|            |           | 02:00–04:00 | Clipping DEM to Study Area                          | Prof. RKL/Prof. MBR/Prof. MRN |
| 29/08/2026 |           | 09:00–11:15 | Slope and Aspect Analysis                           | Dr. SPM/Prof. MBR/Prof. MRN   |
|            |           | 11:30–01:15 | Hillshade and Terrain Visualization                 | Prof. DA/Prof. MBR/Prof. MRN  |
|            |           | 02:00–04:00 | DEM-Based Terrain Products and Map Layout           | Prof. MBR/Prof. MRN/Dr. SPM   |
